| Packaging unit        | 1             |

Electrical data | Supply

|                      |       |
|----------------------|-------|
| Operating voltage AC | 250 V |
| Operating current    | 13 A  |

Installation

|                               |                     |
|-------------------------------|---------------------|
| Connection cross section max. | 2,5 mm <sup>2</sup> |
| AWG number                    | 14                  |

Installation | Connection

|            |                                |
|------------|--------------------------------|
| Connection | Spring clamp plug-in terminals |
|------------|--------------------------------|

Mechanical data | Mounting data

|                            |                           |
|----------------------------|---------------------------|
| Mounting method            | geschnappt                |
| Suitable for mounting type | mounting rail, (EN 60715) |
| Height                     | 68 mm                     |
| Width                      | 47 mm                     |
| Depth                      | 56 mm                     |
